MANUAL SPRAY LANCE

jerko
Sprühsysteme

INEXPENSIVE AND ROBUST

This is what we offer

The modular manual spray lances were developed for simple spraying requirements in the forging and die-casting industry.

Compact design, easy to handle and with the 2-step trigger ideal for spraying and dry blowing

The large selection of spray lances and nozzles allows an optimal adjustment of the spray aerosol for your requirements.

Due to the robust design of our manual spray lances, continuous operation over years is no problem.

Jerko Basic HSL-1

Nozzle: Pipe nozzle Full cone
Pipe length: 450 mm*
**Pipe lengths up to 1.200 mm possible on request*

Jerko Basic HSL-2

Nozzle: 2x compact nozzle without flow control
(up and down at the same time)
Pipe length: 450 mm*
**Pipe lengths up to 1.200 mm possible on request*

Jerko Advanced HSL-2

Nozzle: 2x compact nozzle with flow control
(up and down at the same time)
Pipe length: 450 mm*
**Pipe lengths up to 1.000 mm possible on request*

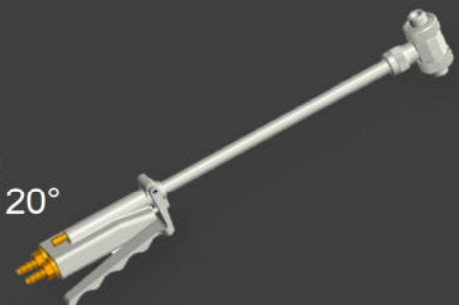

Jerko Pro HSL EJ86-1

Nozzle: 1x EJ86
Full cone 0° / 20° / 40° / 60° / 90° / 120°
Round jet 5 mm / 7 mm
Pipe length: 450 mm*
**Pipe lengths up to 1.000 mm possible on request*

Jerko Pro HSL EJ86-2

Nozzle: 2x EJ86 (up and down at the same time)
Full cone 0° / 20° / 40° / 60° / 90° / 120°
Round jet 5 mm / 7 mm
Pipe length: 450 mm*
**Pipe lengths up to 1.000 mm possible on request*

Hose package 3m

Hose package 5m
